

Rafiki

Print-and-play deck

How to print

1. Print pages 2 to 7 on card (200-300gsm) at 100% / "actual size", not "fit to page".
2. For backs: print page 8 on the reverse of each card page (long-edge flip). It is the same layout on every page.
3. Cut along the grey marks. Round the corners if you like.

How to play (2 to 6 players)

- Everyone gets 4 cards face down in a 2x2 grid. Look at your bottom two once, then leave them.
- Lowest total wins. Ace 1, number cards face value, Jack/Queen 10, black King 10, red Kings and Jokers -1.
- On your turn draw from the deck. Either swap it for one of your cards (discard the old one, face up) or discard it.
- Power cards, when drawn and discarded straight away: 7 or 8 - peek at one of your own cards; 9 or 10 - look at one of someone else's; Jack, Queen or black King - blind-swap one of yours with anyone's.
- Slam: if you know a card matching the top of the discard pile, in ANY hand, slap it on the pile. Wrong? Take a penalty card.
- Think you are lowest? Call "Rafiki!" at the start of your turn. Everyone else gets one more turn, then all reveal.

If you were lowest you score 0; if not, your total plus a 10-point penalty.
